THEY ARE NOW IN JAIL

Comrades Baker, Ruthenberg and Wagenknecht are now in jail.

They were taken to Canton January 31st.

They went without complaint or regret. They understand that war is WAR, and that war demands its victims.

They are "inside" now. You are "outside." They are for the time being, unable to further serve the party. But you are where you can serve it twice as much in the year to come.

Will you do it? Will you double your efforts in behalf of our organization beginning today? Will you attend local meetings regularly, ray dues regularly, coilect dues from those who fail to pay regularly, see to it that the local gets into action at once by insisting that it hold a public meeting or distribute pamphlets

Let's resolve to greet our jailed cororades with a larger, better, healthier organization a year from now, when they leave jail again to work with us.

Will you help us do it?

ALL RIGHT, LET'S GET BUSY AT CNCE!

We Are Invincible

Just a word of greeting to all Ohio Comrades.

The strength of our militant party lies in its responsiveness to the duties thrust upon it. As we respond to and accept new duties which circumstances thrust upon us, just so do we become greater in power and resorucefulness. We learn by doing. It is the best way to learn.

The Socialist Party of Ohio has had removed from its counsels and party affairs three of its highest officers and 'trusted workers. Their efforts for the emancipation of the working class are for the time being set aside. They leave duties which must be portormed, which will be performed! The Socialist Party will not be thwarted in its work for the working class through the loss of these comrades. Other comrades of ability and courage will step into the vacancies they leave. The ranks will be crosee we will march on to the goal of Industrial Democracy.

During the past year the state office has had as its executive secretary one of the most able comrades in the Socialist movement. His pronounced ability as an organizer, his tremendous energy and loyalty to the working class have been proven by the immense development and growth of the party in this state.

While we, who now for the time being, occupy his place, cannot claim the same great ability, we hereby pledge to the Comrades of Ohio, our most earnest efforts, an unswerving support of the principles of our party and an undying faith in the won-

We ask the co-operation of all Comrades, to the end that the emancipation of the working class may be hastened, and we may swiftly pass on to final victory.

LOCALS LOUD IN PRAISE OF REYNOLDS' LECTURES

As far as weather conditions are concerned Comrade Reynolds could never have encountered a worse season to begin a tour of Ohio. Blizzards have blown continuously, snow has blockaded traffic, and thrown train service out o' kelter. Zero and way below has been the rule since he entered upon his tour of the state.

Yet, in spite of these handicaps, he has continued to hold on his course and the results are indeed gratifying. Comrade Reynolds possesses a very happy and unusual manner of delivering a lecture—in fact you do not realize you are listening to a scientific discourse of what you may have heretofore regarded as dry uninter-

Whatever may be the subject Comrade Reynolds chooses for his lecture, his audience is always charmed with the manner in which he handles it. He has a peculiar ability in drawing thru his discourse a vein of humor which is especially pleasing. Every local in the state of Ohio should apply for a Reynolds date. They will never regret having done so. Comrade Reynolds will give lectures upon the following subjects.

From Savagry to Savagry Again. The Evolution of the Tools. The Materialistic Conception of

The Law of Value. Our Mental Enslavement. Popular Misinformation. The Road to Happiness. Are Women People? Scientific Socialism. Right Living. Working Class Education. Comrade Reynolds' dates are as

Local Toronto would like a return date in the near future. The Comrades have taken on new life and are doing fine work down here. I am trying to get the members of the old local at Empire to join with us and am having some success. James J.

"We did not have a very large audience on account of the extreme cold weather. The Comrades here were well pleased with the lecture and hope to be able to hear Comrade Reynolds again at a more opportune time." R. L. Schoffield, Local Pleasant City.

"Replying to your letter of te 9th, asking us for a report of the Reynolds lecture, I am advising you that the small audience (on account of bad weather) was very pleased with his message. He is a good teacher and we could use him again real soon." P. E. Rosengarten, Lorain.

As chairman of the Propaganda Committee of Local Dayton I wish to report that the W. E. Comrade Eubanks writes: "We are going to make a campaign and put up a fight, not for our candidates, but for Socialism in this district and community."

Comrade Nick Weltlich, secretary of Local Massilon, writes he has secured nearly thirty subs. for Ohio Socialist, which will be sent in soon. tary Clarence Heil, Local Ne Bremen. "Feb. 13th has been accepted for a Reynolds lecture. That's the only way to accomplish anything, to stay right with it. We have lots of work to take care of in our congressional campaign, so it's well to start early,' Comrades in other congressional districts would do well to heed this sound advice.

The Socialist Party in the 8th congressional district is laying plans for the campaign which show an eagerness for battle wth the old parties that spells no good for them according to a letter from Comrade G. W. C. Scott of Local Findlay. They held a meeting the latter part of January at which time the field of activities was thoroly looked over, and prelimnary plans developed for the carry ing on of an aggressive campaign.

Remember Comrades, the Socialist Party will be the aggressor in this campaign. We are no longer a little party fighting for a "place in the sun." We are a party of tremenduous energy, of fast increasing numbers, of enormous resources. Right this minute the old parties are scared stiff with fear of the class conscious work ers organized in the Socialist Party. They are holding all kinds of confabs where the question of whether to join hands with each other in order to defeat us is the liveliest issue con sidered. Chances are they will not fuse this year, for they well know that such an act will show up the rawness of the deal they wish to put over on the workers.

Whether they fuse or whether they don't is immaterial to us. The future belongs to the workers and their dirty camouflaging arrests our on-ward march not a whit.

That Comrade James Dartnell of Norwood has discovered the truth of the saying that the way to stay young is to keep active in interesting work, is proven by his letter to the state office in which he applies for membership in THE PARTY. Comrade Dartnell is past 70 years of age and lives by the labor of his hands, how-ever, this does not dampen his enthusiasm in the cause.

Comrade Geo. L. Artz, M. A. L. Wayland, sends in a quarter years' dues, orders some literature and but-The way our M. A. L members pay their dues in advance is a joy and an inspiration. We have doub ed our M. A. L. membership in the ast few weeks.

"Best we ever heard," writes Comrade Leslie Ogle in his report of the Reynolds meeting held at Derwent. "We like Reynolds fine." he adds.

There is nothing the State Office eceives which gives so much inspiration as a letter from a new local con-taining accounts of their activities which show they are in the Socialist Party to do something for the working class. We pass on to our readers the following from Comrade Alda Ford, secretary of Local Niles. Enclosed you will find \$6.64 for which send me supplies. As you know we are just organized and hope to get along fine; we are meeting at Comrade's homes rather than rent a nall until we get a good start. We held our first meeting Sunday. Elected Officials Reports

This department will be a regular and going department in the Ohio Socialist. Socialists should know what their officials are doing after they elect them. We expect to make this one of the newsiest departments in the whole paper. It will contain the neat of reports made to the State Office by our elected officials, also feature stories, of the battles of the representatives of labor in the political field, and other interesting matter of an instructive nature. There is always something we can learn from the other fellow, therefore socialists are interested in the activi-ties of their fellow co-laborers. Watch this department grow.

The first one to send in a report was Comrade A. Lynden Hitchcock, school board member of Cleveland. Hitchcock "spills the beans" for some of the board members at each meeting They always find out what they are there for. If they don't seem to know Hitchcock tells them. Here are three resolutions Comrade Hitchcock has introduced for the benefit of labor and the general good.

FEBRUARY-"GET SUBSCRIP-TIONS" MONTH

Yes, February is "get subscriptions month." Al those on our old lists who do not renew before the next issue will not receive the Ohio Socialist. But we know there will be very few who will not renew. New subscriptions are coming in daily. We have just mailed to all local secretaries and members at large, Ohio Socialist sub-scription blanks. Every member should receiv one of these blanks and at once get it filled with names, and send it in. Don't let this matter slip

by without attention.

DON'T FAIL TO SEND IN A LIST OF NAMES TO GO ON OUR NEW MAILING LISTS WHICH IS NOW BEING MADE UP. DO IT TODAY.

A TOUR OF SOCIALIST ACTIVI TIES IN OTHER STATES

What with Europe developing a scething cauldron of revolution, it seem likely that the Masters of Eu-rope may soon be served with a dish that tastes like this: MENU

Salade Bolsheviki.
Soup
Consomme Liebknecht Radish—Celery Meat Chicken a la Jean Jeaures with Yankee Noodles.

Dessert English Apple Pie French Rolles—Butter Dago Red

The Socialist Party of Washington is securing the necessary quota of names to put before the voters at next fall's election the proposal of establishing a universan eight hour day. We congratulate our comrades of the northwest upon this move. Wo believe from our knowledge of conditions there that they will succeed in putting the measure thru on election day. The great strike among the lumber workers of the Pacific coast during the last summer has served to crystallize sentiment in favor of the shorter work day.

Since the Appeal to Reason parted company with its reason and forsook the principles of the Socialist Party on the War, it is reaping a whirlwind of condemnation. So long, old Appeal, you may have been a good old wagon in your day, but you've done groke down.

Comrade H. G. Braun, state secretary of Tennesee writes to the state office for the use of some cuts we have used in our organization work. We hope they prove useful in the sunny south as they did in the industrial commonwealth of Ohio.

The I. W. W. cases in Chicago appear to drag along as tho there were reasons for it. No doubt the formid-able array of legal talent the Woblies have secured may have something to do with it. However that may be the organization continues growing willy-nilly.

Its an uneasy time for our dear masters. Russia has learned how to do without them, and seems to be perfectly willing to show the rest of the world how to do likewise.

VISITORS, ATTENTION

Mrs. Wagenknecht:

Dear Comrade: I am writing you a note to ask that on the occasion of the coming of yourself or comrade Mrs. Ruthenberg or other of the Cleveland Comrades, to see our boys, that you use my residence for a stopping place as far as it will suit your convenience so to use it.

Mrs. Robertson joins me in extending this invitation and hopes that it will fall in with your plans when you come. We are located about midway between the public square and the a Scotchman, woven by a Belgian, suprison, not more than about 10 min-pervised by a Frenchman, inspected utes walk from either place. There are other of the Comrades here who will be glad to entertain you, but we consider ourselves as putting in the first claim.

I went down to the prison Friday afternoon but was not permitted to speak to any of the Comrades except Ruthenberg.

The regular visiting hours are fram 1:30 to 3:30 on Thursdays. They have their established rules at the prison and while we may not be able to have them ignored as we would wish, yet I think we can manage to do quite a bit for our Comrades while they are there.

Unusual Conditions Demand Unusual Measures

Many of our most active Socialist Party members are now serving terms in jail in different parts of this state. Some have been put in prisons in other states.

Some of these imprisoned members leave families dependent upon them for support. These families now deprived of their former support must be cared for. They are now OUR families and must be cared for as

The months spent in prison by our Comrades must be made as pleasant as possible by supplying hem with plenty of good books, magazines and periodicals and where possible, clothing and food.

The State Executive Committee has foreseen the necessity of lending assistance to the families dependent upon these imprisoned Socialists-so has authorized the printing and sale of the "Sustaining Fund" stamp.

The proceeds from which will be disbursed thru the Executive Committee.

Remember that the price of each stamp you buy goes towards a meal, a book or some comfort for those in jail. Or is used for those left dependent outside— Perhaps for some kiddie, whose daddy has the courage so stand up for his principless even in the face of imprisonment and for whose fidelity to the WORKERS' CAUSE he is called to pay the price.

Local secretaries, see that every member gets a supply of these stamps to sell to anyone who will buy them. There are thousands outside the Socialist Party who want to express their appreciation of the loyal spirit shown by these jailed Comrades. Here is their chance. Let them express their feelings in dollars and

FORGING AHEAD

Ohio Movement in Splendid Condition; Inspiring Comparative Report Rendered by Bookkeeper, Comrade A. E. Bertram.

After a slacking up of activity, due Dues Sts., foreign to the holiday season, the comrades of Ohio have again taken hold of the political and industrial destinies of the state and are forging determinedly aheod.

The month of January being by no means the most favorable in the year for the carrying out of effective work, yet the results accomplished during January just past is the most assuring sign of the firm determination of the comrades who will not see "democracy perish from the face of the earth."

It will be noted from an observation of the various funds, they are all in healthy condition, the "General" having lost some of its "paleness."

The case has been properly diagnosed and the correct remedy is being given, thanks to the army of social physicians in the Party.

Owing to your bookkeeper having to leave in extreme haste to attend the Kennedy lecture last month the books were left out of balance, which left a discrepancy of 96 cents (which the office force could not locate,) an additional credit for the same having been given him by the bank-which was not adjusted in the accounts. The adjustment appears in this months' report by increasing the cash on hand from \$1.741.69 to \$1.742.65.

Comrade A. Wagenknecht stated

ast month that it is desired to keep the members always posted on the financial and other affairs of the organization, in which connection it is asked, that any comrade who wishes any explanation on these matters not to be backward but send in your ques-

The Statement for Jan'y., 1918. Is given in comparison with the January 1917 statement. The deductions to be gleaned from an analysis of the two reports will be self-evident and should fill every comrade with inspiration and a determination to duplicate the success of the past year during the present, so that the January 1919 records will reflect a Socialist organization influence in Ohio as wil stun the master class and their politicians into political and economic in sensibility.

May the results achieved be such

as will be a fitting welcome to our comrades, now in political prison upon their release next January!

The work can be duplicated and may all the loyal comrades thruout the state form one great resolve, that IT WILL be done, and act at once on that resolve! With this action victory will be curs!

Following is the wonderful result achieved by our comrades as shown y the records:

to press dispatches. All of southern Finland is reported to be in the hands of the Red Guards. The Finnish gov-ernment sent word to the Swedish capital for military help against the Reds. No assistance, however, was

"Bread is an ancient custom, is it not, Ignatz?" Yes, ancient.

Those in Cleveland who can buy coal in February will be allowed to pay 15c more per ton then they ever did in their lives before, according to a decision of the county fuel committee. Never mind, you can buy ice cheaply now.

The Bolsheviki can fight. Now we know it's so because the Cleveland Plain Dealer says so. Furthermore, when the Dealer made this startling discovery the editor sat right down and wrote a whole editorial about it. After reading the result of his cogitations we draw the conclusion that the Bolsheviki refuse to fight for something they don't want, but are perfectly willing to scrap for what they do want. The editor concludes

his article thus:

Were it not for the fighting ability and willingness of the Bolshevike soldiers the Bolshevik regime at Petrograd would long ago have been overthrown. The fact that Lenine continues to rule Russia is sufficient proof that the men behind him are not cowards. With the Bolsheviki it is literally true that they so yearn for peace that they are willing to fight for it.

In an endeavor to draw labor and capital together for the period of the war so that strikes may be averted, Secretary Wilson of the department of Labor is organizing a plan forming a joint board of employers and em-ployes to meet in Washington and lay the foundations of general principles to govern their relations during the

The high cost of traveling will be an item for many office holders to consider under government control of the railroads if the order of Director General McAdoo is conscientiously carried out. This is the first economy order given under the new adminis-tration and means that the political chinwipers of the railroads will have to pay or walk. The order also includes a separation of thousands of lawyers from fat retaining fees, whose heavy service to their country consisted in an enthusiastic desire to see to it that the people were kept in bondage to the railroad corporations.

The Russian people comprise the coming nation of the world," says Prof. Edward Ross, of the University of Wisconsinn, who has just returned from Russia, after a five month's study of conditions for the govern-ment. "The new government, he said has been built by the working people for the working people and without consideration for the landholders. It is purely a socialist government," he

The recent near general strike in Germany was the result of hunger, var misery and the subjugation of the workers to the will of the mili-tary machine. While it seems that a compromise has been made, or at least something done to alleviate the sufferings and wrath of the workers, we may rest assured that anything like permanent peace does not exist between the rulers and the ruled. War misery will increase, as the war goes on its weary way. limit to the misery which human na-ture will endure. Time will bring about the same conditions in Germany that were brought about in Russia, with the same result.

The most significant world news of late is the progress and growing power of the Russian Bolsheviki. They have conquered King Capitalism and the last of his henchmen in Russia. Revolts against the rule of the workers stirred up by the former ruling capitalists and land owning classes died in birth. The workers rule in Russia. This fact is undeni-able. The greater significance, however, is found in the fact that the doctrine of revolutionary socialism is spreading to all Europe, in fact thruout the whole world. Finland has its Red Guard, the Scandinavian countries may follow soon. If the masters of Europe do not make peace the workers will. This is the first threat of revolutionary socialism in Europe. The second is that the ruling classes will be dispossessed of the property of the nation, which then becomes the workers' for the workers.

That the land question in Russia will be solved with the same method and dispatch as the question of control of industries in the cities is indicated in the recent dispatches in the daily press. The large urban population which has been spending the winter in the cities of Russia are now going back to the farms with the coming of spring. While in the cities they have gained first hand information of the methods of the revolutionists and are preparing to inaugurate them in gaining control of the -7 Jud land. Their methods are simple enough. They consist of the same methods the owners formerly used against the workers, namely confis-Branch Bellaire—Jos. Vukelich

The police now being either dead or assimilated into the revolutionary body the peasants have no one to fear in their work of taking control of their rightful portion of God's footstool. Yes, it's a sorry day for exploiters of labor in "Darkest Russia."
